

Help the ones who've been discriminated,

In our school the problem is not accepting people e.g. because of: different opinion/ opinion from the majority, different behavior, other interests and others like:

- that girls learn better than boys etc.
- mocking the height,
- different hobbies,
- weight,
- make-up,
- family,
- personal life,
- hair colour,
- wealth,
- cheaper clothes than others,
- different lifestyle,
- experience

the school should organize meetings about people with a different skin color, hair color and orientation

How to counteract stereotypes/ what to do to change it?

- make posters about it
- create special activities
- send anti-discriminatory posts on platforms like Facebook or Instagram
- there should be short films on the school website to prevent stereotypes.
